

Mardi Gras Masks Instructions

Print and cut out the Mardi Gras masks, then carefully cut out the eye holes (exacto knife is recommended if you have one). You can choose to cut out the feathers or not (as you can adorn with your own).

Then have seniors decorate the masks by giving them glitter, feathers, beads, etc.

Tape a straw (or a plastic or wooden dowel/stick) to the back of each mask on one side so the mask can be held up in one hand.

Have fun!!
